Messrs. Yates and Co., of Columbia, are drilling wells in our city at this time. They have completed three and will drill one or two more before they leave. They certainly understand their business.

Gov. J. R. Hindman of Columbia called in to see us one day last week on his return from his farm. The Governor was feeling good and looking all right and it was only a few minutes after his arrival until he had a number of our citizens around him to hear him in his very interesting conversation. We are always glad when he comes in to see us.

The primary election is a thing of the past, and we must say here that our Democrats are well pleased with their ticket. We have just this kind in this part of the county, that we are perfectly willing and are satisfied with any ticket this great party of ours in the State will nominate. We cast our votes on last Saturday for the men, that we thought was the strongest and best qualified for the various offices, but if the majority of our votes in the State did not see as we did we have no fight nor discord in our party here in old Gradyville precinct. You will see at the November election that we will come up with our strength for there was not a man on the ticket, let him be whom he may, but what we one and all can support most heartily, and we must say here again this is the feeling of our party in this part of old Adair.

Mr. Ike Vaughan, an old and respected citizen, of our town, one of the hands employed on J. A. Turner's farm, is a hustler for a man of his age. He is 73, and gets about like a boy.

Miss Fannie Vaughan visited Mrs. J. A. Turner, Tuesday.

Mr. and Mrs. Nat Murrell are stopping at Mr. Willie Melson's, one night last week.

Several from this place were in Jamestown, last week.

The Irish potato crop is nearly a failure in this section.

The hot, dry weather a week or so back, came very near ruining the gardens in this section. Irish potato and bean vines died. We have only had a few light showers up to this writing, but they have done a world of good. Corn looks very well considering the dry weather that has been. Most farmers plowed deep to raise moisture from below. Wheat is above the average, and it is estimated that there are 1,000 bushels in this valley.

Two threshers started Monday, one at Denmark, and the other at Esto.

Some time back in that dry weather, when the gardens were burning up and the sun scorching hot, some of the people began to murmur. Some wanted to hold prayer meeting to ask for a shower. That reminds your humble pen pusher of a very dry spell several years ago, when there was a prayer meeting appointed at a certain church on a certain day, and the congregation had about all come in, and were waiting for a certain public man to come. In a short time he walked in and said to the crowd; "Well Brethren, I don't think our meeting will do any good, for the wind is from the East, and I never knew it to rain in my life when the wind was from that quarter."
